### World of Measures

Year 1 pupils have embarked on an engaging journey through the world of measurement in Maths. They began by comparing lengths and heights with terms like "shorter," "taller," and "longer." Moving on, they measured items using cubes, paper clips, and counters, before progressing to rulers and centimetres for more precise measurements.

### Magnetic Discoveries

In their recent Science lessons, Year 3 children have been fascinated to learn that magnets can work their magic from a distance! Through experiments with paper clips, rulers, and magnets, they've made an exciting discovery: on average, a paper clip starts to feel the magnetic pull when it's just 2 cm away from a bar magnet. This hands-on investigation not only highlights the power of magnets but also sparks curiosity and deepens their understanding of the forces at play in our world.

KIND HANDS, KIND FEET, KIND WORDS, KIND ACTIONS

We are inclusive, confident, and enterprising learners who are brave, curious, optimistic, and kind. We are ready to embrace the future!

## Sprouting Curiosity

One of our EYFS children sparked a wonderful learning adventure by bringing in a seed, which was planted together in a cozy pot. This little seed has become the center of the children's exploration into the world of plants. They have delved into the essentials of what plants need to thrive and the fascinating stages of their life cycle. The children's curiosity was further nurtured by the story 'A Tiny Seed,' which beautifully illustrates a plant's journey from seed to sprout and beyond.

## Tennis

This term has been all about tennis for Year 4 children, from mastering the basics to engaging in exciting matches. Initially, the children focused on honing essential skills such as the correct way to grip a racket and the variety of strokes crucial for a player's arsenal, understanding not just the 'how' but the 'why' behind each technique.

Recent weeks marked a significant milestone as the children put their learned skills into action, competing in games against one another. It was a fantastic opportunity to see the children's progress and how they applied their knowledge in real match situations. With the spirit of Wimbledon inspiring them, who knows how far their newfound tennis talents will take us!

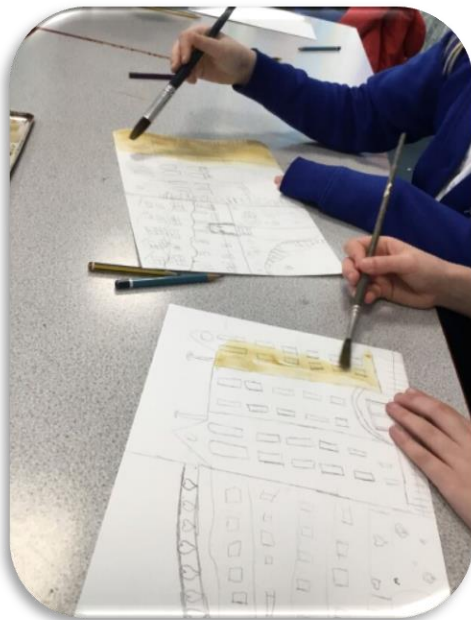

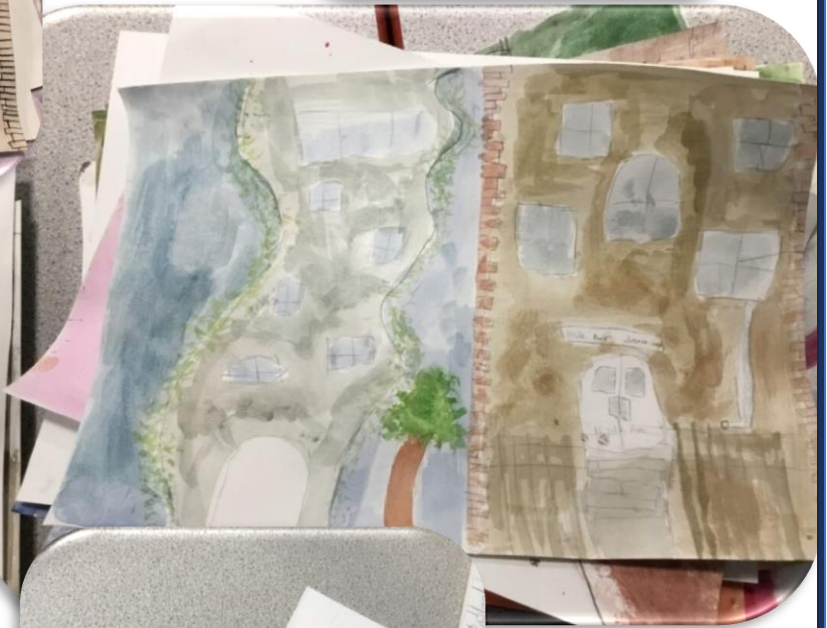

KIND HANDS, KIND FEET, KIND WORDS, KIND ACTIONS

We are inclusive, confident, and enterprising learners who are brave, curious, optimistic, and kind. We are ready to embrace the future!

## Year 4's Vision of Hyde Park

In our "120 Years of Hyde Park Project," Year 4 children have brilliantly combined their hopes for the school's future with their artistic skills. After practicing sketching and color mixing, they've created watercolor visions of Hyde Park as it is and as it could be. This project not only showcases their creativity but also their connection to the school's past and their aspirations for its future. Through their artwork, we see a vibrant envisioning of Hyde Park, reflecting both its heritage and potential for growth.
